

Sustainable renovation project loan

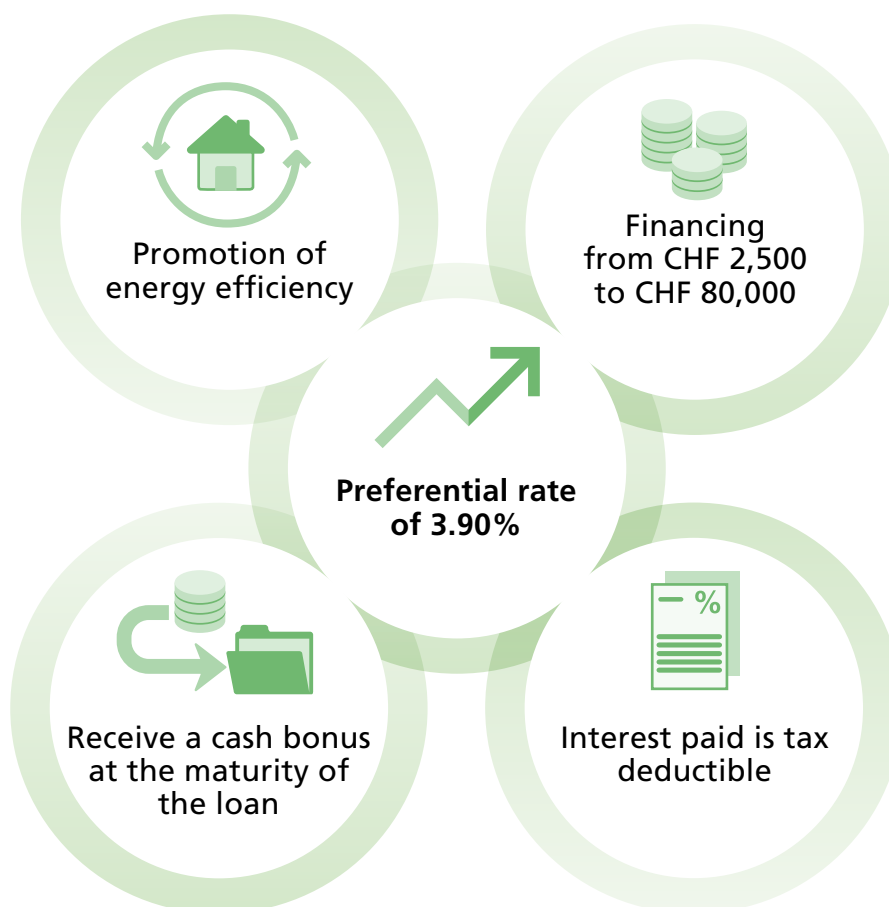

Finance the sustainable renovation of the home you own at a preferential rate of 3.90%.

The essentials

Are you planning to install solar panels, change your old boiler or carry out geothermal work? Our solution allows you to quickly and cost-effectively finance your sustainable renovation work or energy-efficient installations without increasing your mortgage.

Advantages

Conditions

- Swiss resident
- Owner of a property located in the canton of Geneva (the borrower must be registered in the Land Register)
- Submission of the subsidy decision obtained from the OCEN (GEnergie 2050) in connection with the renovation
- Minimum age for granting a loan: 18 years old
- Loan amount: minimum CHF 2,500 – maximum CHF 80,000
- Duration: from 6 to 60 months
- Early repayment: no penalty (except processing fee)
- Cash-bonus: at the end of the contract the client may request a cash-bonus of 1% of the loan amount within 3 months after payment of the last monthly instalment. More information on the eligibility conditions can be obtained from your adviser
- A loan will not be granted if it causes the consumer to become over-indebted

Right of revocation

The Federal Law on Consumer Credit grants clients a 14-day reflection period. Provided that the client certifies that he has not exercised his right of revocation, the funds are released on the 15th day.
