

The Swiss Bank of Geneva

### A UNIVERSAL BANK MODEL

- Through its Global commodity finance business unit, the bank has been active for more than 17 years in international commodity trade finance, mainly in the energy, metals (ferrous and non-ferrous) and soft commodities sectors. Geneva is one of the world's main centres for commodity trading. In Switzerland, this sector comprises some 570 businesses, nearly 400 of which are in the Geneva region.
- BCGE is one of the few banks in Geneva to give its clients the benefit of easy and personalised access to the financial markets, through its status as a member of the Swiss stock exchange (SIX Swiss Exchange). The trading room operates under the open architecture principle and is completely independent in the choice of products used.
- The bank offers high-level expertise for private and public sector financial specialists, as well as company managers in the real estate sector, proposing the best options in terms of financial strategy and risk control. BCGE's consultancy offer focuses specifically on three themes: debt management, control of foreign currency risk and cash flow optimisation.
- The bank offers multi-dimensional asset management solutions using Swiss know-how: for each client segment, BCGE offers a comprehensive range of services, all based on an investment philosophy ensuring a balance between risk control and return on assets.

### BCGE investment philosophy

- Well balanced strategic allocation
- High degree of diversification
- Open architecture
- Simplicity and transparency
- Risk management
- Equity as core asset class

The investment philosophy determines the performance

### FINANCIAL HIGHLIGHTS

- BCGE recorded excellent results for 2019.
- Operating profit stands at a record level of CHF 165.4 million, underpinned by all of the bank's activities.
- Net profit rose by 6.2% to CHF 96.8 million.
- Total income exceeded CHF 420 million, mortgage loans (at CHF 11.7 billion, +2.6%) increased based on a targeted approach while assets under management and administration crossed the CHF 30.4 billion threshold (+13.9%).
- Productivity corresponds to the levels achieved by the best universal Swiss banks with international activities, as indicated by the cost/income ratio of 56.9%.
- Current operating expenses are under control. This enables us to commit more resources to widen our commercial offer in favour of companies and individuals, including in digital banking.
- Profitability, expressed by operating profit to equity, is at 10.1% and compares favourably with peers.
- The dividend of CHF 3.75 to be proposed to the Annual General Meeting is up 10%.
- For 2020, the bank expects operating profitability to be close to 2019 levels.
